Acknowledgements

As we celebrate the Bronx Family Support Annual Conference, the Bronx DD Council commends the members of the Family Support Committee who worked tirelessly to make this conference a success. Without the input and generosity of these key people, we could not say that this is the Best Family Support Conference in New York State.

Thank you to **Mary Bonsignore and Nellie Vélez, Co-Chairs**, who founded the committee and lead it to success every year. Mary and Nellie are the inspiration behind the conference. Their ability to plan a new and different conference every year is amazing.

We want to thank **Diane Santiago-Rodríguez** from F·E·G·S who has the responsibility of organizing the Resource Directory Guide. Her ability to devote the time and patience to update and make changes to the information provided assures a comprehensive and user friendly guide.

Special recognition to **Deborah Weston**, Parent Advocate; **Josie Astacio-Cancel**, Advocate; and, **Monica Sanabria-Miroxian**, Family Support Project at North Central Bronx Hospital, for their work assuring the accuracy of the information in the guide. Thank you also to **John Paul González** from the New York City Department of Health and Mental Hygiene for advocating with the City to support this important guide and conference.

We also want to thank all the members of the committee for their dedication and hard work throughout the year.

Family Support Committee

Mildred Ramos, Metro N.Y. D.D.S.O
Diane Santiago-Rodríguez, FECS System
Monica Sanabria-Miroxian, North Central Bronx Hospital
Deborah Weston, Parent Advocate

Adult Day Services

ADULT DAY SERVICES OVERVIEW OF ADULT DAY SERVICES

The following programs/services are available for students who are graduating from the Department of Education as well as anyone eligible for OPWDD services over the age of 21. Occasionally people are accepted at age 16 or 18.

DAY HABILITATION is a service under OPWDD's Home and Community Based Waiver (HCBS). This program assists individuals to acquire, retain or improve their self-help socialization and adaptive skills including communication, travel and other areas in adult education. Day Habilitation regularly takes place in a non-residential setting separate from the person's private residence or other home. The person's activities and environments are designed to foster the development of skills and appropriate behavior, greater independence, community inclusion, relationship building, self-advocacy and informed choice. Additionally, individuals accessing Day Habilitation often contribute to their communities through volunteer work. Transportation is provided.

DAY HABILITATION WITHOUT WALLS provides the same service as DAY HABILITATION but the only difference is that the people gather at a site or hub and from there they go out to the community. In some instances the person is picked up from home and goes with the staff out in the community. Transportation is provided.

WORK READINESS PROGRAMS address the issue of occupational exploration, job hunting techniques, and the behaviors necessary to hold a job. A significant component of this type of program is devoted to the individual's participation in community-based work internships. Staff works directly with each person at a work site to further assess their work skills, preferences and support needs. Considerable time is spent on training people to travel independently to work locations. The final phase of the program involves individualized job placement with intensive job coaching services. The coach helps each person learn work tasks and appropriate work behaviors. Coaching continues as needed to insure job retention. Transportation is not provided.

ADULT DAY SERVICES OVERVIEW OF ADULT DAY SERVICES

PREVOCATIONAL SERVICES addresses the person's vocational interests. They assist individuals who are interested in joining "the world of work" but whose skills are such that they may not expect to obtain competitive employment within the next year. The individual may or may not perform work for which he or she is paid while receiving prevocational services. These services include support and training related to the ability to obtain and retain employment, excluding training on job tasks per se. Transportation is not provided.

SUPPORTED EMPLOYMENT SERVICES help individuals work in all types of community businesses and industries to include: banks, education, technology, health care, hospitality, food service, retail, not-for-profit corporations and government.

ENHANCED SUPPORTED EMPLOYMENT SERVICES is designed for people who have not been able to work using traditional intensive supported employment services. It provides a higher focused set of supports to assist in attaining positive employment outcomes.

EMPLOYMENT TRAINING PROGRAM provides internships and trainee opportunities in order to help the person seek, acquire, and maintain competitive employment. As a part of the program, participants will attend training sessions that will promote growth and development as well as enhanced employment opportunities. The internship or trainee opportunity will last for up to 18 months. For further information on this program, you may contact, Mona Lisa Killewbrew at (718) 430-0457.

COMPETITIVE EMPLOYMENT

The ACCES-VR Office (Adult Career and Continuing Education Service) formerly known as VESID, is an agency that assists people with disabilities in obtaining paid employment commensurate with their skills. They also provide educational and job training services. For further information, call (718) 931-3500.

MTA New York City Transit is now offering travel-training to qualified Access-A-Ride customers. The trainings are conducted by the Cerebral Palsy of New York State (CPA/NYS). For further information call (212) 947-5770.

Children's Services

CHILDREN'S SERVICES

Early Intervention (0 – 3 years old)

Early Intervention is a comprehensive interagency program that supports infants and children with developmental delays in their efforts to realize their full potential. It reduces the likelihood of delays among at-risk children, assists and empowers families to meet their child's and their own needs and entitles children, regardless of race, ethnicity or income, to services through the program.

Pre-School Program (3 – 5 years old) (CPSE – Committee on Pre-School Education)

Children between the ages of 3 and 5 years of age may be referred to the Committee on Pre-School Special Education (CPSE) for an initial evaluation and/or there are concerns about the child's cognitive, behavior, articulation, language, fine motor or gross motor development. This is a voluntary process, and the referral may be withdrawn at any time, if the parent wishes to do so.

School Age Program (5 – 21 years old) (CSE – Committee on Special Education)

Children between the ages of 5 to 21 may receive services through the Committee on Special Education (CSE). Eligibility is determined when a student is found to have a significant delay in cognitive, language, articulation, fine motor, gross motor, social or emotional skills. The delay must affect the student's ability to make educational gains in order to qualify the student for services.

Universal Pre-K

H.R. 555: Universal Pre-Kindergarten Act was established to assist States in establishing a universal pre-kindergarten program to ensure that all children 3, 4 and 5 years old have access to a high-quality full-day, full calendar year pre-kindergarten education.

Family Support Services

Family Support Services

Family-directed statewide systems of comprehensive services which help families provide care to a family member with Intellectual/Developmental Disabilities.

This directory lists services available to individuals with Intellectual/Developmental Disabilities living with their family in the Bronx.

All applicants must meet OPWDD eligibility criteria in order to apply for these services.

These programs are funded through The New York State Office of Persons With Developmental Disabilities and administered through the local office Metro NY Developmental Disabilities Service Office – Bronx (718) 430- 0752.

Family Support Services include:

Information and referral
Family and individual counseling
Recreation
Camps
Family Reimbursement

After-school programs
Transportation
Sibling services
Support groups
Service coordination

ID Intellectual Disability
LD Learning Disability
MH Multiply Handicapped
ASD Autism Spectrum Disorder

DD Development Disability
VI Visual Impairment
NA Non Ambulatory

Waiver Services

The Home And Community Based Services (HCBS) Waiver

- HCBS Waivers provide services and supports to children and adults with long-term needs and their families to enable them to remain at home in the community.
- Waiver services are designed for people who, but for these services, require the Level of Care provided in a long-term care facility.
- Waiver services allow Medicaid to pay for some services not provided through “regular” Medicaid.
- Under the HCBS Waivers, parental income and assets are not considered when determining the child’s eligibility for Medicaid. Only the child’s income and assets are counted.

A flexible array of services and supports *funded by Medicaid Waiver* include;

Residential Habilitation Services (now Community Habilitation) provides to persons with DD who do not reside in a residence which is certified or operated by OPWDD. These services assist the person with DD to acquire/improve the skills needed for activities of daily living. CH services can be provided at any non-certified location, including the person’s home.

Day Habilitation Services provides supervised assistance to acquire/improve the skills needed in community settings away from home.

Prevocational Services prepares individuals for paid/unpaid employment.

Supported Employment Services provides competitive work in an integrated setting.

Respite Services provides temporary relief by a trained respite worker to individuals responsible for the care and support for an individual with DD respite is scheduled and time-limited and can be provided in the home, out of the home, during the day, evening or overnight.

Environmental Modification is specialized equipment or changes to the living/work environment that enable persons with physical disabilities or limited communication lead more independent lives.

Adaptive Equipment are devices and/or appliances etc., which enable the person to live more independently.

Waiver Services

PLAN OF CARE SUPPORT SERVICES

An alternative form of service coordination, PCSS providers (a qualified Medicaid Service Coordinator) assist individuals to review and update their Individual Service Plan. An individual must have received at least 3 months of Medicaid Service Coordination to be eligible for PCSS, with the exception of those enrolled in Early Intervention.

FAMILY EDUCATION AND TRAINING

This service may be provided to families enrolled in the HCBS waiver who are under 18 years of age.

CONSOLIDATED SUPPORTS AND SERVICES

CSS is a funding method under Medicaid that enables an individual to design and direct their own services in accordance with a person-centered plan.

CARE AT HOME WAIVER FOR CHILDREN WITH DEVELOPMENTAL DISABILITIES

Provides assistance to families with children living at home who have severe disabilities or medical conditions. To be eligible a child must be under 18 years of age; have a developmental disability demonstrate complex health care needs, be eligible for the level of care provided by an intermediate care facility, not be hospitalized and be ineligible for Medicaid.

Article 16 Clinics

Article 16 clinics: Facilities certified by OPWDD to provide habilitation services (long-term therapies) to persons with developmental disabilities. These services are ordered by a physician or other practitioner to reduce the effects of physical or mental disability, enabling the person to achieve maximum independence. Services include fitting, modification and training in the use of assistive devices to ameliorate the disability condition.

Medicaid Service Coordination

What is MSC?

Medicaid Service Coordination is a Medicaid State Plan service provided by OPWDD that assists persons with developmental disabilities in gaining access to necessary services and supports appropriate to their needs. OPWDD delivers almost all service coordination through its Medicaid Service Coordination program. MSC is provided by qualified service coordinators and uses a person-centered planning process in developing, implementing, and maintaining an Individualized Service Plan.

MSC provides a vital link to information about service options. The service coordinator works with individuals and their families to develop a plan of care that assures individuals who are eligible for OPWDD services receive the assistance they need.

Who is eligible to receive MSC?

In order to receive MSC, a person must:

1. Have a documented diagnosis of a developmental disability.
2. Be enrolled in Medicaid.
3. Demonstrate a need for ongoing and comprehensive, rather than incidental service coordination
4. Live outside of an Intermediate Care Facility (ICF), Developmental Center (DC), Psychiatric Hospital, Small Residential Unit (SRU), Nursing Facility or Hospital, or any other Medicaid Funded setting that provides service coordination.
5. Not be enrolled in any other comprehensive Medicaid long-term service coordination program.

Most of the OPWDD programs require Medicaid. If you do not currently have Medicaid, but are in need of any services contact, call Medicaid Service Coordination agencies and inquire about the home and community based waiver.

Plan of Care Support Services

PCSS is an alternative form of service coordination. PCSS providers assist individuals to review and update their Individualized Service Plan. PCSS is delivered by a qualified Medicaid Service Coordinator. Typically, an individual must have received at least three months of Medicaid Service Coordination to be eligible for PCSS, with the exception of Early Intervention enrollees.

Residential Services

INTRODUCTION

As a family member of a person with developmental disabilities, placement of your loved one in the care of a residential service provider can be one of the most difficult decisions you will ever have to make. In planning the future for someone, you want to make sure that your family member will be safe and secure and receive the kind of care and treatment that will put your mind at ease.

There are many agencies in the Bronx that offer residential options. Their mission is to provide housing for people with disabilities, assisting them to lead meaningful and productive lives in the manner they choose, in their own communities, with the supervision and supports they need. These services range from 24-hour supervised homes to apartments for more independent individuals.

When the time to consider a residential opportunity for a person and his/her family arrives, it will be necessary to seek information about what services the person needs where that person and/or the family would like the services and which agency they would like to provide the services.

This guide serves to give you some knowledge about residential options, some questions you should ask when you speak with an agency and the names, addresses and contact persons of organizations that provide residential services in the Bronx.

All of the organizations listed are licensed by the New York State Office for People with Developmental Disabilities [OPWDD]. The local office, the Metro NY Developmental Disabilities Office [DDSO], can also be contacted for further information at 718-430-0474.

You may also receive further support and assistance through the Bronx DD Council both at the Executive Board meetings as well as the monthly Residential Committee meetings.

For more info call Kathleen Cucinell at [914] 375-8898.

Please know that you are not alone out there. Good luck!

Bronx DD Council
Residential Committee

NEW YORK CARES GUIDING PRINCIPLES

New York Cares is a program for ongoing out-of-home residential development for people with Developmental Disabilities who live in communities throughout New York State. Individuals who need out-of-home residential services and are eligible for those services from OPWDD and who are registered on the out-of-home residential waiting list, shall:

- have access to community-based services consistent with their need in an individualized services environment;
- play a significant role in developing those services through a person-centered approach that considers their needs and choices;
- be able to continue relationships with family, friends and other individuals; and
- have the opportunity for increased independence, individualization and inclusion in the communities where they will be served.

NEW YORK CARES GUIDING PRINCIPLES

Certified Supportive and Supervised Residences

Residential Habilitation services provide individually tailored supports that assist with skills related to living in the community. These supports include adaptive skill development; assistance with activities of daily living (hands-on); community inclusion and relationship building; training and support for independence in travel; transportation; adult educational supports; development of social skills; leisure skills; self-advocacy and informed choice skills; and appropriate behavior development to help the individual access their community. Residential Habilitation also may include program related personal care and protective oversight and supervision

Family Care (FC)

Family Care is a certified program that provides a structured and stable home environment within a family unit to a person with a developmental disability, offering support, guidance, and companionship. Family Care providers are home owners who receive a monthly stipend to care for individuals with developmental disabilities in their own homes. Learn more about the Family Care program by reading our brochure (also available in Spanish), or contact your local DDSO.

Individualized Residential Alternative (IRA)

Individualized Residential Alternative (IRAs) are certified homes that provide room, board and individualized service options. There are two different kinds of IRA's. A Supervised Individualized Residential Alternative is a home that has staff nearby at all times that individuals are at the residence. A supportive Individualized Residential Alternative is a home in which living is more independent and supervision is based on the person's need for supervision; staff typically are not onsite at all times when residents are home.

NEW YORK CARES GUIDING PRINCIPLES

Intermediate Care Facilities (ICF)

Intermediate Care Facilities (ICF's) are residential treatment options in the community for individuals with specific medical and/or behavioral needs. ICFs provide 24-hour on-site assistance and training, intensive clinical and direct-care services, supervised activities and a variety of therapies. ICFs are designed for individuals whose disabilities severely limit their ability to live independently.

Community Residences (CR)

Community Residences (CR) provide housing, supplies for daily living like food and toiletries, and services on a daily basis for individuals who have Developmental Disabilities. Community Residences foster supportive interpersonal relationships, offer supervision to ensure health and safety, and assistance in learning activities that are a part of daily living. Community Residences are designed to provide a home environment, and also provide a setting where individuals can acquire the skills necessary to live as independently as possible. There are two types of community residences; supervised, in which staff are nearby at all times that individuals are in the residence, and supportive, in which living is more independent. In supportive community residences, staff are on-site and available less than the entire time that individuals are home, based on the specific support needs of an individual.

NEW YORK CARES GUIDING PRINCIPLES

Some Questions Families Should Consider

- How much experience does the agency have in working with persons who are developmentally disabled?
- How much experience does the agency have in providing a residential service?
- Where are the agency's group homes located? Can I visit any of these homes?
- What does your agency do to make the transition as smooth as possible for my family member?
- Can my family member visit and participate in activities at the home prior to moving there?
- Can I talk to any family member of the individuals living in a home being considered for a Residential opportunity in order to get their views on the operation of the home?
- How is the appearance of the home, inside and outside?
- How will the residence be furnished and decorated?
- Will the individuals have their own closets and dressers?
- Will there be curtains, pictures, rugs and other typical decorations and furnishings?
- Who decides on decorations and furnishings? The individuals? Staff? Administrators?
- What kind of training does staff receive?
- How many staff is on duty during the day, evening, nights, weekends and holidays?
- What is the rate of staff turnover? What are the reasons for staff turnover?
- What are the kinds of background checks or reference checks done on new employees?
- How does staff deal with medical or other types of emergencies?
- Will I be informed of any emergency involving my family member? How and how quickly?
- What do the people who live in the home do each weekday?
- What activities take place at the home or in the community during the week? On weekends or holidays? Are inclusive community activities promoted?
- Will my family member be able to continue attending sleep-away camp and if so who will pay?
- How is the plan of services developed for my family member, and how will the family be involved in the creation and updating of this plan?
- Who can be contacted to discuss concerns about the plan once it is implemented?
- What is your agency's procedure for addressing any serious concern a family member raises about any aspect of the home [such as the condition of the home or issues with staff]?
- How will people be allowed to express concerns or grievances? Is there a formal process for handling complaints?
- Are people allowed and encouraged to receive and make visits with family, friends and guardians?
- Are they allowed to visit privately if they wish?
- Are there adequate areas for private activities or conversation? Do staff and others knock before entering private spaces?

Continued...

- Do individuals utilize community-based services to meet their health, dental and recreational needs?
- Will people be allowed to use their personal money and property? Are there any restrictions on the use of either? Is each resident regularly informed of his/her personal finances?
- How will people be involved in meaningful, productive work or day programs?
